Academic Opportunities

The Max Planck Law website provides a single gateway to PhD and postdoc opportunities at our ten Institutes – scan the QR code or visit

law.mpg.de/academic-opportunities/

On the site, you can either apply for any of the current vacancies listed, or find out which Institute caters for your research interests and send in a speculative application.

Discover the Benefits of Joining Max Planck Law

Welcome to Max Planck Law! If you are a passionate early career researcher in law looking for academic opportunities in an intellectually stimulating and supportive environment, read on to learn about the opportunities we can offer you.

Max Planck Law is a network of ten Max Planck Institutes engaging in legal research. We are dedicated to advancing the understanding of legal systems and their impact on society through rigorous academic inquiry and cutting-edge research projects. A significant amount of our work is interdisciplinary, comparative, and transnational. On the following pages, you will learn more about the benefits of joining us and why moving to Germany could be a great opportunity for you.

We are part of the Max Planck Society, a leading research organization based in Germany that consists of over 80 research Institutes specializing in a wide range of academic disciplines. We are always looking for talented and passionate PhD students and post-doctoral researchers.

At Max Planck Law, you will have the chance to build upon a legacy of pioneering research and to become part of a community that values intellectual curiosity, exceptional scholarship, and collaboration.

We value research and believe that it should be generously funded. We offer PhD students and postdocs contracts that combine the guarantee of academic freedom with the security of a salaried position.

Learn more about the many opportunities at Max Planck Law in this brochure and on our website!

Collaborating at the Forefront of Legal Research

Max Planck Law connects ten Institutes and over 400 researchers across Germany and Luxembourg.

Each of our ten research Institutes operates independently, focusing on specific fields ranging from anthropology of law to tax law. However, we collaborate closely, particularly in support of our early career researchers.

We have a wide array of resources and opportunities available to assist you in your career. These include research seminars, workshops, a professional development programme, support for grassroots cooperations, exchanges with top international law faculties, as well as a fellowship programme that attracts renowned scholars from around the globe.

Our working language is English, and knowledge of German is not an essential requirement for application.

ABOUT THE MAX PLANCK SOCIETY

The Max Planck Society is Germany's most successful research organization. Home to 30 Nobel Laureates, we stand shoulder to shoulder with the most esteemed research organizations across the globe.

The Max Planck Institutes produce over 15,000 publications every year, many of them amongst the most cited works in their respective fields.

The Max Planck Institutes offer researchers the freedom to pursue their own research and provide excellent working conditions. There are no teaching obligations, but researchers are supported in gaining teaching experience.

LEGEND Areas of expertise

One of the world's largest Networks of Legal Research

***At Max Planck Law, we charge no tuition fees.
All our researchers are employed under contracts that
provide both academic freedom and financial security.***

Pioneering Legal Research

We recognize the importance of international collaboration in developing ground-breaking research.

Our researchers come from diverse backgrounds and research cultures, fostering creativity and innovation. The success of our approach is reflected in the achievements of our researchers, who have gone on to impact society in significant ways. Whether as professors, judges, policy-makers, officials, or leaders of think tanks or civil society organizations, our researchers have made their mark both inside and outside the academy. We take pride in their accomplishments.

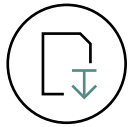

SSRN PARTNERSHIP

Max Planck Law maintains a Social Science Research Network (SSRN) Research Paper Series and consistently ranks highly in a number of SSRN criteria for top international law schools.

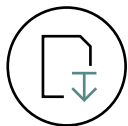

AMONGST THE TOP 500 INTERNATIONAL LAW SCHOOLS

Max Planck Law frequently ranks **#1** for papers uploaded

Max Planck Law frequently ranks **#2** for total papers downloaded

Max Planck Law frequently ranks **#3** for papers downloaded each month

DIVERSITY, EQUITY, INCLUSION

The Max Planck Society is committed to promoting diversity in the workplace and encourages applications from individuals identifying as belonging to underrepresented groups in terms of, for example, gender, disability, age, religion, internationality and ethnicity, sexual orientation and identity, social background and education.

How We Support Your Career

Max Planck Law offers a range of resources and opportunities to support your research, whether you are working towards a PhD, embarking on a postdoc project, or leading your own research group.

As a researcher at one of our Institutes, you will have access to excellent resources, including specialized libraries and databases, as well as support from administrative and academic staff.

In addition, you will benefit from funding for research-related expenses such as travel costs, conference fees, and publication costs. We provide career coaching, organize exchanges with leading international law faculties, and help you promote your research globally.

You can also access German language courses, onboarding services,

and family services to assist with, for example, childcare.

The Max Planck community is a globally respected network of researchers with a wealth of experience and knowledge. Being part of this network provides a strong foundation for your professional future.

We believe that by providing you with both access to a valuable network of researchers and the necessary financial resources, you will be able to focus on what really matters: pursuing your passion and making a meaningful impact in your field.

FUNDING

PhD students at our Institutes receive a three-year contract and a minimum salary of € 2,700 per month before tax. For postdocs, the initial contract is a fixed-term appointment for two years which can be extended twice, up to a maximum of six years. The annual salary before tax will be on a scale from € 52,700 to € 76,700 for a full-time position, depending on prior experience, and up to € 84,000 for research group leaders. The Institutes facilitate mobile working through local agreements. The positions also include an annual bonus, access to state benefits, and 30 days annual leave.

This is what you can achieve with us:

AS A PHD STUDENT, you will have the opportunity to work towards your doctorate in a supportive and diverse environment. Your status as an employed researcher will allow you to entirely focus on your PhD project.

AS A POSTDOC, you will carry out independent research with the guidance and support of an Institute Director or Research Group Leader. This will allow you to enhance your research skills, build your expertise, and establish yourself as an internationally recognized researcher.

AS THE HEAD OF A RESEARCH GROUP, you will be responsible for managing your group's research and activities, and for completing a major project.

MAX PLANCK LAW

FRANKFURT – an international and diverse urban scene

HALLE – excellent working conditions

MUNICH – a perfect combination of city and outdoor life close to the Alps

HAMBURG – a dynamic port city with a rich cultural life

FREIBURG – proof that the weather in Germany can be amazing

... AND MANY MORE.

Advancing Your Career in Germany

Germany is a leading destination for research and education, attracting some of the brightest and most innovative minds from around the world.

With its long history of academic excellence, high-quality institutions, and strong funding and support system, Germany offers an unparalleled environment for PhD students and postdocs to further their careers. Whether you are looking to further your education, contribute to cutting-edge research, or explore new opportunities for personal and professional growth, Germany offers an attractive and supportive environment for your continued success.

LIVING AND WORKING CONDITIONS

Germany is widely known for its comfortable lifestyle and affordable living costs. It is a highly sought-after global destination, offering a range of benefits such as excellent healthcare, reliable infrastructure, a clean environment, stunning scenery, and vibrant cities, all contributing to an enjoyable living experience.

Moreover, Germany is considered a secure place to reside, providing a safe and stable environment for its residents. Today's Germany is a cosmopolitan and diverse society, with over 25 % of its population being migrants or descendants of migrants.

VISA AND WORK PERMIT REQUIREMENTS

As an EU citizen, you already have the right to work in Germany. If you are joining us from outside the EU, with a job offer or visiting researcher contract you will qualify for a settlement permit for highly skilled workers or for an EU Blue Card.

If you move to Germany with your partner, they will be eligible for a working visa and for financial support with language courses. Additionally, any children will be eligible for financial support.

I am delighted to be part of Max Planck Law. The network and my Institute provide me with a perfect environment to conduct my doctoral research and to continue my education as a lawyer committed to social change. This is because Max Planck Law offers its members a wide range of academic resources and

promotes valuable exchanges among researchers from different countries of the world on various areas of the law. For those who like to do research on legal-related topics and are committed to academic exchange, open legal discussion, and the promotion of a culture of equality, I encourage you to apply.

CRISTINA VALEGA CHIPECO

PhD student

Max Planck Institute for the Study of Crime, Security and Law

I chose my Institute because of its interdisciplinary approach, which makes it possible to work with economists, psychologists, or sociologists. Furthermore, Max Planck Law offers excellent working conditions and allows academics to focus on their own research.

If you are interested in research, I would highly recommend Max Planck Law, as the Institutes offer excellent conditions to work intensively, to get in touch with international experts, and to discover new interesting topics at conferences or during a research stay.

MARTIN STERNBERG

former PhD student and currently postdoctoral researcher in the Department of Behavioural Law and Economics

Max Planck Institute for Research on Collective Goods

This is what our current researchers and alumni say:

There are many reasons why one should apply for a PhD or a postdoc position with Max Planck Law. If I had to name the three main reasons that led me to spend nine years at the Institute in Freiburg they would be the following:

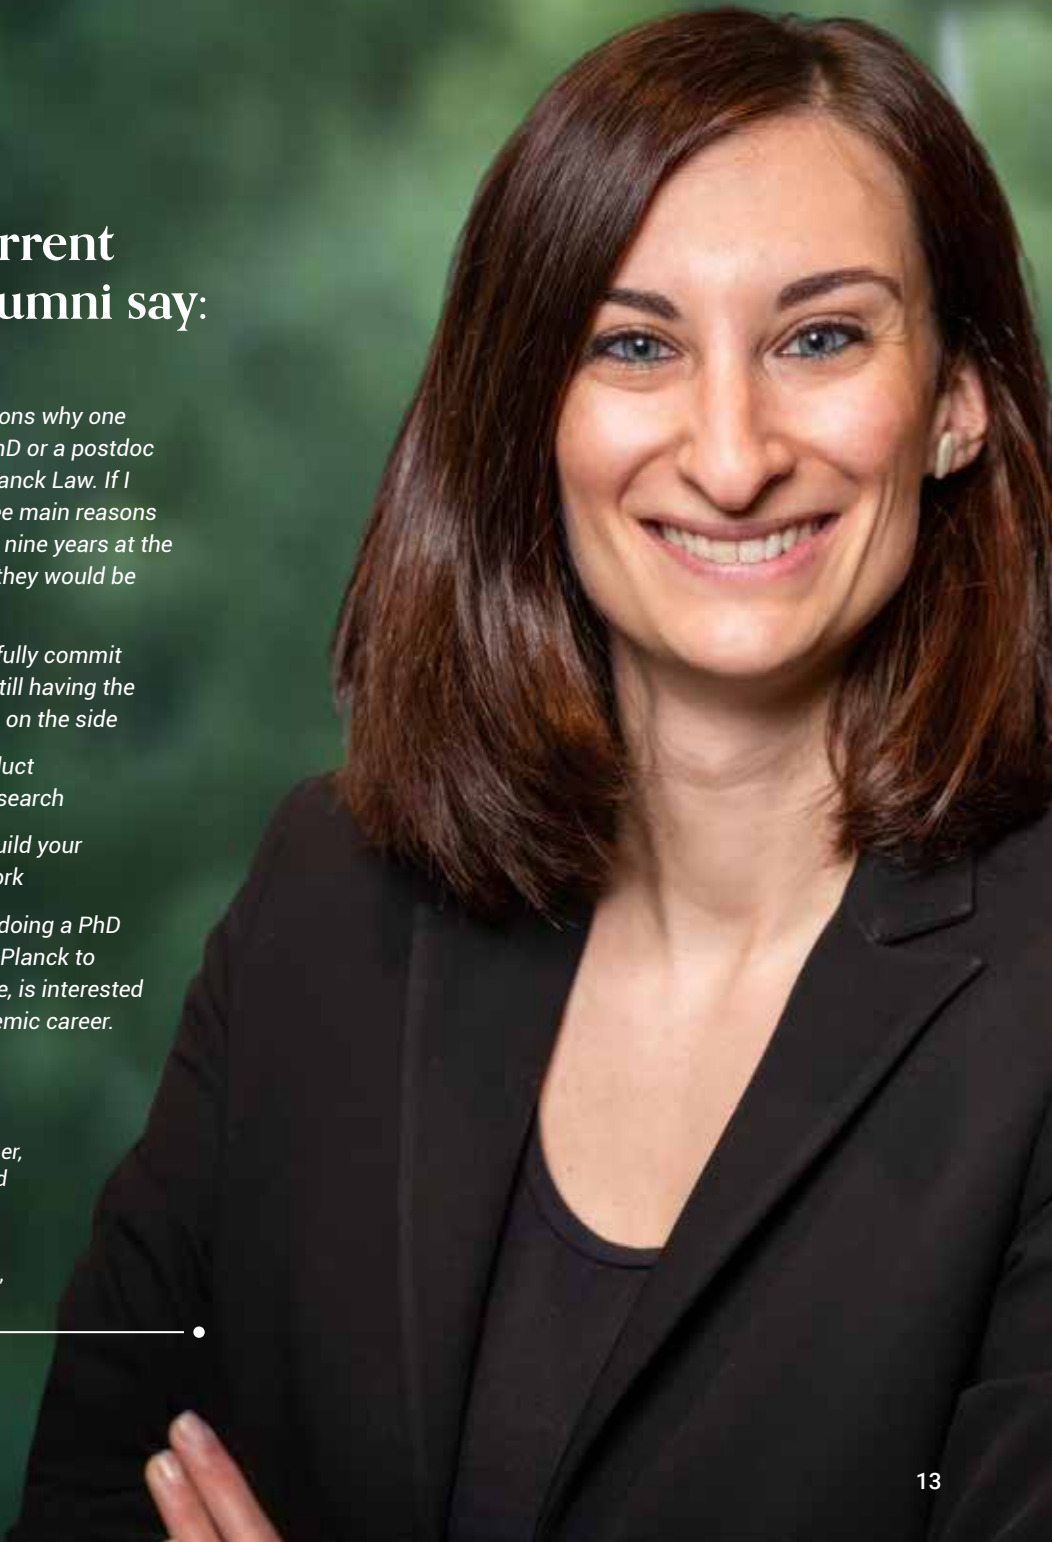

- *the opportunity to fully commit to research while still having the possibility to teach on the side*
- *the chance to conduct interdisciplinary research*
- *the possibility to build your international network*

I would recommend doing a PhD or a Postdoc at Max Planck to anybody who, like me, is interested in pursuing an academic career.

CLARA RIGONI

*former PhD student,
postdoctoral researcher,
and currently Affiliated
Senior Researcher*

Max Planck Institute
for the Study of Crime,
Security and Law

This is what our current researchers and alumni say:

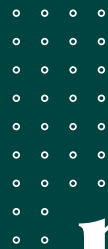

Joining Max Planck Law has been one of the best decisions of my academic career. My Institute's commitment to cutting-edge research and its focus on interdisciplinary approaches have allowed me to broaden my horizons and gain valuable insights. The opportunity to build and expand my international network has been invaluable, providing me with a diverse range of perspectives and a wealth of knowledge.

I highly recommend Max Planck Law to anyone looking to further their academic pursuits and make a meaningful impact in the field of law. Max Planck Law opens up almost infinite possibilities for its researchers.

RALF SEINECKE

postdoctoral researcher

Max Planck Institute for
Legal History and Legal Theory
